How to Register and Log in to the New Association Websites

The World of Homes main page will appear. Click Register to start the process.
The registration screen will appear and must be filled out. Leave account number area blank. Your account will be matched by Last Name and Address.
Once you have filled out all required areas of the registration, you will see the result pop up. If your information is a perfect match to the system, you will get an immediate email.

If the provided information is similar, it will indicate a successful result, but your registration will be PENDING until matched and approved.

Matching will occur daily. You will receive an email once you are approved. No approval requests will taken over the phone.
The email you will receive with your Set Password link will appear in your email inbox as a donotreply email. See below.

The email contents are shown below. Click on the link to set your password. Set your password.

After setting password you can log in to the website.
Log in with your EMAIL ADDRESS and the password that was just set.

Once you are logged in, you will see the name of your community association. Eventually, the banner pictures will be your community pictures. For now, they are stock images.

If you are a board member, you should have already been identified by our offices and you will have an extra menu.
The Account Information menu has the Pay Assessment option. This is where online credit card or echeck payments can be made and recurring payments set up.

Please be patient as your website access is granted.
